

**REMARKS**

In response to the Final Office Action mailed December 13, 2006, claims 1, 9, 17, 25, and 53 have been amended. No claims have been newly added. Claims 35 and 46 were previously cancelled. Therefore claims 1-34, 36-45, and 47-62 remain pending. Support for the instant amendments are provided in the as-filed specification. Thus, no new matter has been added. In view of the foregoing amendments and following comments, allowance of all the claims pending in the application is respectfully requested.

**Rejections Under 35 U.S.C. §§ 102 and 103**

Claims 1-34, 36-39, 41-45, 47-49, 51-57, 59, 60, and 62 stand rejected under 35 U.S.C. §102(e) as allegedly being anticipated by Montlick (U.S. Patent No. 5,561,446). Claims 40, 50 and 58 stand rejected under 35 U.S.C. §103(a) as allegedly being unpatentable over Montlick in view of Carlson *et al.* (U.S. Patent No. 7,010,616). Claim 61 stands rejected under 35 U.S.C. §103(a) as allegedly being unpatentable over Montlick in view of Wagner *et al.* (U.S. Patent No. 6,169,911). Claims 1, 9, 17, 25, and 53 stand rejected under 35 U.S.C. §103 (a) as allegedly being unpatentable over a publication entitled "Learn Microsoft Office" by Russell A. Stultz, in view of Kumar (U.S. Patent Publication No. 2006/0105804).

Applicant disagrees with the propriety of the rejections. However, solely in an effort to expedite prosecution and to further clarify points of novelty over the references of record, independent claims 1, 9, 17, 25, and 53 have been amended.

In regards to independent claim 1, neither Montlick nor Stultz disclose, *inter alia*, the features of “a method of formatting a document that includes transmissible media content for display on the screen of a mobile wireless client device based on user input generated at the mobile wireless client device” and “presenting a plurality of different forms comprising: a brief form, wherein the brief form includes less than all of the fields available for display, and is used to format the display of the transmissible media content according to the user selected one or more fields corresponding to the portions of the transmissible media content, wherein the user selected fields are less than all the available fields.”

Independent claims 9, 17, 25, and 53 recite similar features, among other things. Dependent claims 2-8, 10-16, 18-24, 26-34, 36-45, 47-62 are allowable because they depend from one of allowable independent claims 1, 9, 17, 25, and 53, as well as for the features they recite individually. Accordingly, withdrawal of these rejections is requested.

**CONCLUSION**

Having addressed each of the foregoing rejections, it is respectfully submitted that a full and complete response has been made to the outstanding Final Office Action. Accordingly, Applicant respectfully requests entry of this After-Final Amendment and allowance of all pending claims. Notice to that effect is respectfully requested.

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned.
